V. +REVIEW/DISCUSSION/CONSIDERATION FOR POSSIBLEAPPROVAL OR DENIAL OF APPLICATION FOR RESTORATION OF LICENSE FOR RYAN DALISKY, D.O., (Discussion/For Possible Action) *Board may go into closed session pursuant to NRS 241.030 to move to a closed session because the discussion may pertain and concern this applicant's character, alleged misconduct, professional competence, or similar items) Carla Perlotto, President*

Dr. Perlotto asked Dr. Dalisky if he wished for this matter to proceed in a closed session. Dr. Dalisky declined to go into a closed session for this matter.

Micheline Fairbank, Board Counsel, stated that Dr. Ryan Dalisky's Nevada medical license expired on December 31, 2023. He has applied for reinstatement and disclosed prior malpractice claims, stating they occurred before license expiration, had been previously reported, involved no new claims, and resulted in nominal settlements with full patient recovery.

Board staff review found two malpractice settlements finalized after his last Board review—one exceeding one million dollars and another suggesting possible permanent injury. These findings conflict with Dr. Daliskys's representations set forth in his application for restoration of license.

Concerns raised include:

1. **Disclosure Accuracy** – Whether the applicant fully and truthfully disclosed settlement details.
2. **Regulatory Compliance** – Possible violations of NRS for false or misleading statements.
3. **Professional Integrity** – Whether the lack of transparency affects his suitability for reinstatement.

While procedural requirements have been met, the Board may wish to request further documentation from Dr. Dalisky to clarify discrepancies and determine whether reinstatement of licensure is appropriate at this time or should be conditioned on additional verification.

Dr. Perlotto stated it appeared there are concerns regarding whether certain documents were completed accurately, and there may be issues of misrepresentation of some items.
The primary question was whether to reinstate the license, which had been expired for approximately two years. If reinstated, conditions may need to be imposed.

The Board members would have an opportunity to ask questions and Dr. Dalisky would be given an opportunity to respond.

Dr. Dalisky reported that he has been working with staff member Ms. Montano and had previously visited the office in person to submit paperwork related to his application. During his last visit, he submitted all required documents except the settlement letters for his malpractice cases, which he was unable to obtain due to difficulty contacting his attorneys at the time.

Dr. Dalisky stated that both malpractice cases have been resolved since his last licensure. He expressed that if any misunderstanding occurred regarding his documentation, he takes full responsibility. He affirmed that he is not withholding any information from the Board.

Dr. Dalisky clarified that when referring to the recovery of the patient involved in one of the malpractice cases, he was paraphrasing based on information provided by his attorney. He was informed that the patient has returned to work in construction, which he interpreted as a full recovery.

He emphasized that he was not attempting to minimize or deny the fact that the injury occurred and acknowledged that the injury was idiopathic in nature and attributable to him.

Dr. Dalisky reiterated his intention to be transparent and cooperative and confirmed that he has no intention of concealing or minimizing any relevant information.

Dr. Dalisky clarified that both cases were settled in April of 2025 after his license had expired.

Dr. Perlotto opened the floor for the Board to ask Dr. Dalisky any questions.

Mr. DiMaggio, Executive Director, informed the Board that the relevant materials were in the "Licensee to Appear" folder within the application packets. These materials included:

- An affidavit for the restoration of Dr. Dalisky's medical license in the state of Constipation,
- A written explanation from Ms. Montano regarding Dr. Dalisky's representations to her, and
- Reports from the National Practitioner Data Bank (NPDB).

During review of the response to Question 4 on the restoration of license application, the Board discussed whether Dr. Dalisky had properly disclosed malpractice claims or settlements since his last renewal. Ms. Montano's email explained that she initially marked "No," believing all prior claims had already been reported to the Board of Osteopathic Medicine in 2022–2023. However, when the NPDB report was reviewed, two new settlements from 2025—after Dr. Dalisky's license had expired—were discovered. She then contacted him for documentation and changed the answer to "Yes" on Question 4 on the restoration of license application.

One 2018 case in Lapeer County, Michigan, involved an aortic injury during trocar insertion. The patient survived, returned to work, but was left with a foot drop. Dr. Dalisky admitted he mistakenly described the patient as "fully recovered," explaining he relied on his attorney's information and had no direct follow-up.

The Board discussed the confusion over the yes/no responses and the importance of accuracy and transparency in all disclosures. Dr. Dalisky stated he had no intent to conceal anything and emphasized his commitment to honesty and professionalism. The Board acknowledged the mix-up but stressed that complete candor with the Board is essential to maintaining public trust, viewing the issue as likely an isolated misunderstanding.

Mr. Nigam motioned to reinstate Dr. Dalisky's osteopathic medical license. Dr. Janda seconded the motion. The Board unanimously approved reinstating Dr. Dalisky's osteopathic medical license.

VI. LEGISLATIVE UPDATE (Discussion/For Possible Action) *by Cassidy Wilson, Board Government Affairs/Lobbyist*

Ms. Wilson provided an update regarding possible regulations affecting the Board: Since the legislature did not pass SB78 or any other related bills, the Department of Business and Industry (B&I) has drafted proposed regulations. Mr. DiMaggio reviewed the draft regulations and submitted comments to Nikki Hagg at B&I, which Ms. Wilson acknowledged and appreciated.

The draft regulations originated from a working group formed a few months ago by B&I, consisting of representatives from approximately five boards, including the Veterinary Board, Board of Medical Examiners, and Funeral and Cemetery Boards. The group met once but was unable to reconvene due to a cybersecurity incident which occurred this year. Following that, B&I proceeded to draft the regulations independently and shared them with all Title 54 boards around September 10, 2025.

Boards were given until October 10, 2025, to submit comments. A public workshop to review the draft regulations was originally scheduled for October 17, 2025, in Carson City. However, due to the volume of feedback received, B&I has postponed the workshop to a tentative date of November 25, 2025.

It remains unclear whether B&I will revise the draft regulations based on the submitted comments. Ms. Wilson and Mr. DiMaggio plan to meet to discuss next steps. Additionally, Ms. Wilson is working with other lobbyists who were involved in SB78 and related board legislation to determine how these regulations may move forward.

She concluded by asking if there were any questions and noted that the proposed regulations have been made available to all board members.

Ms. Wilson provided additional context on the draft regulations: The proposed regulations stem from a 2023 bill that placed various boards under the oversight of the Department of Business and Industry (B&I), granting B&I certain administrative and oversight authority.

Key concerns include:

- **Confidentiality**: B&I may gain access to sensitive case information.
- **Board governance**: Provisions related to board member term limits and training requirements under the Attorney General's Office.
- **Reporting**: New reporting requirements tied to existing board audits.

Ms. Wilson added that while not a merger like SB78, these regulations would significantly expand B&I's oversight role over the boards.

Ms. Wilson also noted that many terms in the proposed regulations lack clear definitions. This raises concerns that if boards do not provide certain information requested by Business and Industry—possibly due to lack of clarity—they could be subjected to increased administrative oversight under vague regulatory language.

Dr. Perlotto expressed that we would like greater input and participation in the regulatory process, emphasizing a desire for a more active role in shaping future developments of regulations proposed by B&I.

Ms. Wilson also stated that it was announced that the Governor will call a special session in the coming months, potentially in November. Unlike a regular session, the Governor sets the agenda for a special session through a formal proclamation, including the date and specific topics to be addressed. Possible topics may include his crime bill and other measures that did not pass during the last regular session. The exact timing and agenda are still pending official announcement.

VII. REVIEW/DISCUSSION/CONSIDERATION/ACTION REGARDING POSSIBLE APPROVAL OF HEARING OFFICER ALLISON'S FINDINGS, RECOMMENDATIONS SET FORTH IN THE AMENDED ORDER NUNC PRO TUNC, WITH OR WITHOUT MODIFICATION, OR OTHER POSSIBLE ACTION PURSUANT TO NRS 622A.300(5) REGARDING ROBERT ESLINGER, D.O. *(Discussion/For Possible Action)*

Dr. Perlotto stated that this agenda item is removed and the matter will be placed on the Board's agenda for its November 12, 2025, meeting.

VIII. *EXECUTIVE DIRECTOR'S REPORT by Frank DiMaggio*

a. *Financial Statements*- Executive Director DiMaggio stated that financial statements for July and September of 2025 are in the Board materials. We are consistently on the uptick in terms of licensing, especially with Interstate Medical Compact Licenses.

b. *Legislative Updates*- Mr. DiMaggio spoke about what Ms. Wilson provided an overview of the draft regulations received from the Department of Business and Industry (B&I), which were sent by Nikki Hagg on September 10, 2025, with a deadline of October 10, 2025, for comments.

The statute placing the board under B&I's "purview" is vague and undefined, grouping the board with 36 other licensing boards and granting B&I oversight in six statutory areas. In the proposed regulations, B&I outlined rules for each area, requiring that all boards "adopt and enforce" policies and procedures created by B&I. Concern was expressed that this wording effectively gives B&I's internal policies the force of law without requiring board input, creating a process where B&I can issue binding directives without public workshops or stakeholder engagement.

In comments to B&I, it was suggested to revise the language to state that boards "adopt" rather than "adopt and enforce" B&I policies and that such policies should be adopted "by regulation," not merely created internally. This change would ensure that any new requirements go through the formal regulatory process, allowing public participation. Further comment was that the current draft language is vague, overly broad, and likely unenforceable as written.

Mr. DiMaggio then referenced a memorandum from Rosalie Bordelove, Chief Deputy Attorney General for Boards and Open Government, dated July 21, 2025, which summarized updates to the Open Meeting Law from the 2025 legislative session. Key changes include revisions under AB 64 expanding the attorney-client exception to allow boards to seek legal advice on any matter, not only those involving existing or potential litigation. The bill also clarified defamation protections in public comment and confirmed that investigative proceedings related to potential disciplinary actions are exempt from the Open Meeting Law. Additionally, AB 219 now requires that public bodies provide clear instructions for members of the public to call in and comment when remote technology is used, a practice the board already follows.

These legislative changes provide greater flexibility for boards in consulting counsel privately while ensuring transparency and compliance with public participation standards.

Dr. Weed commented that while the summary of the draft B&I regulations was excellent, she had concerns about the sections related to the reporting of budgets and financial information to the Department of Business and Industry (B&I).

Dr. Weed expressed disagreement with the idea that the Board should have to provide its budget or financial reports directly to B&I, noting that the board already submits audited financial statements to the Legislative Counsel Bureau (LCB). Ms. Wilson added that she had heard, though not confirmed, that LCB does not release those audits to B&I, which raised questions about why the Board would need to provide the same information separately.

c. *Comments* – No comments

IX. *LEGAL REPORT (Discussion/For Possible Action) by Micheline Fairbank (Fennemore Craig, LLC) Board Counsel*

Attorney Michelle Fairbank, the new board counsel, was introduced and gave her first legal report. She explained that she is in the process of getting up to speed on the Board's ongoing legal matters. She has been working closely with Mr. DiMaggio to review and prioritize outstanding issues, particularly settlement agreements that have been delayed, and is focused on finalizing those to ensure timely resolution. She thanked the Board for its patience as she becomes familiar with its operations.

In response to a question from the Board about additional legal support, Ms. Fairbank confirmed she has an associate in the Las Vegas office, Brandon Peevy, who will assist as needed. She shared that she is based in Reno and has an extensive background in administrative and regulatory law, having previously worked for the Nevada Attorney General's Office and later as Deputy Administrator with the Nevada Division of Water Resources. She also served as a hearing officer and worked with state agencies such as Environmental Protection and Water Resources.

Ms. Fairbank expressed that she is familiar with the regulatory process and noted that the Board will have further opportunities to provide input on the proposed B&I regulations before they go to the Legislative Commission for final approval. She emphasized her commitment to being a resource for the Board and explained that if she is ever unavailable, her associate will attend meetings as her backup. The Board welcomed her and expressed appreciation for her experience and willingness to support their ongoing work.

X. *ITEMS FOR FUTURE DISCUSSION/ACTION/UPCOMING AGENDA*

No items were mentioned for future discussion.

XI. *PRESIDENT'S REPORT on Board Business, Carla Perlotto, President*

a. Dr. Perlotto expressed sadness in delivering this report due to recent losses within the organization. The Board took a moment to recognize and honor attorney Richard Dreitzer for his significant contributions and dedicated service to the Board.

b. Dr. Perlotto announced that the next Board meeting will be held on Wednesday, November 12, 2025, at 5:30 p.m. She reminded members that the meeting is scheduled for Wednesday instead of the usual Tuesday, as Veterans Day falls on Tuesday that week.

XII. *PUBLIC COMMENT*

No public comments were received.

XIII. *ADJOURNMENT (For Possible Action) Carla Perlotto, President*

Dr. Janda made a motion to adjourn the meeting; seconded by Mr. Nigam. There being no further discussion, the Board unanimously voted to adjourn the meeting.

Minutes approved by the Board at the November 12, 2025 Board Meeting
